Campground Sales Update - February 2017

Quarterly report prepared by Gary Gordier, Campground Sales Team Leader:

The listing contract for the Woodlands came up for renewal January 1, 2017, and Manitou is February 1. They have both been renewed. Our Realtor has broadened the marketing scope by getting a Broker from the Chicago area. There is activity occurring as a result. In addition to their routine websites, our properties are also listed on LoopNet and CoStar, which are national in scope. For both properties there have been some general inquiry contacts, and some have developed into possibilities. Some specifics about each campground follows.

Manitou: The party that sent the Letter of Intent just before MC Conference in November may not go much further. Our Realtor has been in contact with them and has done some research. It appears they are part of a group that invests in “flips.” They acquire property (on the cheap) do minimal improvement and then flip it. While they could still come forward with a solid offer, he is not encouraged, based upon his findings.

The partner broker from the Chicago area has yielded some prospects. Prior to the holidays, our realtor had been talking with two potential buyers (along with the broker) and had sent them additional requested information. They appear wanting to use the property for some development other than a campground. He believes there could be some concrete results from either or both, sometime this spring. Another party from the Chicago market contacted the realtor and wanted to know if we had and financial reports from our operations. They are considering the property for campground use. While our income/expense reports have limited value from a commercial perspective, it would provide some insight into maintenance operating costs. That information has been sent to them for the last 3-years. Another party is looking at the property for a non-profit campground use.

Woodlands: There hadn't been much recent activity until right before Christmas. This contact could be promising. The contact is professional and has experience in these kinds of transactions. There is

a party from Kansas, who owns a “game ranch” there, and has family in Michigan. He had been thinking about opening a “game ranch” in the UP. However, they went past the property, saw the sign, and got interested. Our Realtor has sent them all the information about the property. They are checking with Michigan officials regarding any regulations needed for compliance should they enter this venture. We anticipate hearing something from them later this Spring.
