Are the following criteria currently being met?

A sustained decline in COVID-19 cases have occurred locally for 3 weeks or as recommended by the local government.	
Testing for COVID-19 has increased and is available locally as per the rules established within the local government.	
Local hospitals are not overloaded with COVID-19 patients and can provide treatment for all patients and health conditions needing hospital care.	
Personal Protective Equipment (masks, gloves, sanitizer) are accessible to purchase by members and use during group gatherings.	

How do you plan to respond to the required provisions listed in the guidelines?

Church facility

Physical distancing

Church school programs

Worship services

Sacraments

--

Mid-Week Services

--

Church facilities used by outside groups

--

How do you plan to communicate this plan with the congregation?

--

Anything else?

--

Congregations must comply with local government guidelines that stipulate how and when religious organizations can meet in-person.

The decision for a congregation to begin in-person gatherings must include consultation with the Mission Center President and Field Apostle to ensure for the wellbeing of all members of the congregation and community.

Date reviewed by Mission Center President
